

ENERGY ASSESSMENTS

Small changes that lead to big energy savings for home.

BETTER HOMES, BETTER PLANET

Customized home energy assessments can help families save over \$150.

ENVIRONMENTAL

Home energy assessments can help you reduce your home's energy consumption and cut back on the use of fossil fuels. They can also help identify areas where energy efficient appliances can be installed.

ECONOMIC

Energy assessment recommendations can help you save money on your monthly utility bills. Energy assessments also provide free and discounted energy-saving appliances and products.

CONVENIENT

Energy assessments can be scheduled when it works best for your schedule, either in-person or virtually. Enjoy free product installations and customized recommendations for your home.

HIGH AC BILLS GOT YOU DOWN?

Already thinking about this winter's heating costs? Consider scheduling a free energy assessment to help identify easy ways to reduce energy consumption at home for year-round savings.

SIGN UP TODAY

Just one in-person or virtual appointment with an energy advisor can help reduce your energy costs and help fight climate change through lowered emissions.

COMMUNITY SOLAR

Clean, reliable, homegrown solar power for your home.

BETTER HOMES, BETTER PLANET

Help create a
climate-resilient Oak Park.

ENVIRONMENTAL

Signing up for a community solar subscription supports carbon-free, renewable solar power, local green jobs, US independence from fossil fuels, and reduced air and water pollution.

ECONOMIC

Subscribers enjoy monthly savings on their electric bills. Signing up with Oak Park's community solar partner, MC2, means you don't need to worry about background or credit checks, signup fees, or cancellation fees.

CONVENIENT

With community solar, there is no need to install or maintain solar panels on your property. Both homeowners and renters can participate in community solar.

ZERO HASSLE SOLAR POWER

Want all the benefits of solar power with zero hassle? Consider a community solar subscription today! Oak Park can help you connect your household with cheaper, carbon-free energy to help fight climate change and slash your electricity costs!

SIGN UP TODAY!

It takes less than five minutes to sign up for a community solar subscription to help create clean, carbon-free electricity. Oak Park's Sustainability Office is available to help you sign up today.

WEATHERIZATION

A better planet starts with a better home.

BETTER HOMES, BETTER PLANET

Weatherization helps us take steps towards a brighter climate future.

ENVIRONMENTAL

Weatherizing your home ensures that cool air stays in during the summer and hot air stays put during the winter. Weatherization helps reduce your overall energy useage and cuts down on the use of fossil fuels.

ECONOMIC

Heating and cooling systems do not need to work as hard to maintain air and water temperatures, lowering monthly utility bills.

CONVENIENT

Weatherization improvements are a one-time investment that benefits your home for years to come.

EFFICIENT, AIR-TIGHT HOMES

Weatherization stops air leaks around doors and windows and uses insulation to make homes more comfortable and energy efficient. It's an easy way to save energy and help fight climate change through lowered emissions.

SIGN UP TODAY!

Weatherization is a one-time home improvement project that benefits your home for many years afterwards. Oak Park's Sustainability Office is available to help you sign up today.

ROOFTOP SOLAR

A bright source of locally grown energy.

BETTER HOMES, BETTER PLANET

Rooftop solar was one of the best investments we've made for our home.

ENVIRONMENTAL

Installing rooftop solar panels for your home or business supports carbon-free, renewable solar power, local green jobs, US independence from fossil fuels, and reduced air and water pollution.

ECONOMIC

Rooftop solar is a smart, long-term investment to help save money on your electric bills and add value to your property.

CONVENIENCE

Numerous incentives can help cover the cost of rooftop solar. Once installed, rooftop panels can last up to 30 years, providing local, clean electricity for your home or business.

A BRIGHT INVESTMENT

Rooftop solar is a one-time investment for long-term electricity savings. It's an easy way to generate clean energy and help fight climate change through lowered emissions.

SIGN UP TODAY!

There are numerous resources to help you get started on your rooftop solar project. Oak Park's Sustainability Office is available to help you sign up today.
